

# Instruction for Authors

**European Journal of Academic Essays (EJAE)** is an Open Access Journal with the objective of publishing quality research articles in science, medicine, agriculture and engineering such as Nanotechnology, Climate Change and Global Warming, Air Pollution Management and Electronics etc.

The Journal welcomes the submission of manuscripts that meet the general criteria of significance and scientific excellence. Papers will be published shortly after acceptance.

## **Submission**

Submit manuscripts as e-mail attachment to the Editorial Office at: [ejae.journal@gmail.com](mailto:ejae.journal@gmail.com) and cc to [editor@euroessays.org](mailto:editor@euroessays.org) along with covering letter. A manuscript number will be mailed to the corresponding author same day or within 48 hours. The authors may also suggest two to four reviewers for the manuscript (EJAE may designate other reviewers). There is no page limit. The submitting author takes responsibility for the paper during submission and peer review.

Please download [Cover letter-EJAE](#) and [EJAE Paper-Template](#)

## **Publication Fee**

Publishing fee in EJAE is 29 euro.

## **Terms of Submission**

Papers must be submitted on the understanding that they have not been published elsewhere (except in the form of an abstract or as part of a published lecture, review, or thesis) and are not currently under consideration by another journal. The submitting author is responsible for ensuring that the article's publication has been approved by all the other coauthors. All enquiries concerning the publication of accepted papers should be addressed to [ejae.journal@gmail.com](mailto:ejae.journal@gmail.com).

## **Review Process**

All manuscripts are reviewed by an editor and members of the Editorial Board or qualified outside reviewers. Decisions will be made as rapidly as possible, and the journal strives to return reviewers' comments to authors within one or two weeks. The editorial board will re-review manuscripts that are accepted pending revision. It is the goal of the EJAE to publish manuscripts 1 week after acceptance.

## **Style of Manuscripts**

Manuscripts should be written in clear, concise and grammatically correct English (check the

template file) so that they are intelligible to the professional reader who is not a specialist in any particular field. Manuscripts that do not conform to these requirements and the following manuscript format may be returned to the author prior to review for correction. All pages should be numbered consecutively in the bottom centre starting from the title page. The manuscript should be presented in the following order.

### **Title and Authorship Information**

The title should be a brief phrase (capitalize first letter of each word in the title) describing the contents of the paper. The Title Page should include the authors' full names and affiliations, the name of the corresponding author along with phone, fax and E-mail information. Corresponding authors' name and address should appear as a footnote.

### **Abstract**

All manuscripts should not exceed 120-250 words and should describe the scope, hypothesis or rationale for the work and the main findings. Complete sentences, active verbs, and the abstract should be written in the past tense. Standard nomenclature should be used and abbreviations should be avoided. No literature should be cited.

### **Keywords**

Key words (3-10 words) should be provided below the Abstract to assist with indexing of the article. These should not duplicate key words from the title.

### **Introduction**

This section should include sufficient background information, provide a clear statement of the problem, the relevant literature on the subject, and the proposed approach or solution. The aims of the manuscript should be clearly stated. The introduction should not contain either findings or conclusions. It should be understandable to colleagues from a broad range of scientific disciplines.

### **Materials and Methods**

This should be complete enough to provide sufficient detail to allow the work to be repeated by others. However, only truly new procedures should be described in detail; previously published procedures should be cited, and important modifications of published procedures should be mentioned briefly. Capitalize trade names and include the manufacturer's name and address. Subheadings should be used. Methods in general use need not be described in detail.

### **Results**

Results should be presented in a logical sequence in the text, tables and figures; repetitive presentation of the same data in different forms should be avoided. The results should not contain material appropriate to the Discussion. It should be written in the past tense when describing findings in the authors' experiments. Results should be explained, but largely without referring to the literature.

## **Discussion**

The discussion should consider the results in relation to any hypotheses advanced in the Introduction and place the study in the context of other work. Results and Discussion sections can be combined.

## **Conclusions**

If an optional conclusion section is used, its content should not substantially duplicate the abstract.

## **Acknowledgment**

The acknowledgments of people, grants, funds, etc should be brief.

## **References**

Bibliographic references in the text appear like [1, 2, 5, 6], using square brace in superscript.

References should be numbered consecutively, with style:

Journal paper:

1. Hadjibabaie, M., N. Rastkari, A.Rezaie and M. Abdollahi, 2005. The Adverse Drug Reaction in the Gastrointestinal Tract: An Overview. *Intl. J. Pharmacol.*, 1 (1): 1-8.

Books:

1. Daniel A. Potter, 2002. *Destructive turfgrass insects: Biology, diagnosis and control*. Wiley Canada Publishers, pp: 24-67.

Chapters in Book:

1. Bray R.A., 1994. The leucaena psyllid. In: *Forage Tree Legumes in Tropical Agriculture* (eds R.C. Gutteridge and H.M. Shelton) pp. 283–291. CAB International, Oxford.

Titles of journals should be given in full. 'In press' can only be used to cite manuscripts actually accepted for publication in a journal. Citations such as 'manuscript in preparation' or 'manuscript submitted' are not permitted. Data from such manuscripts can only be mentioned in the text as 'unpublished data'.

A Report:

1. Makarewicz, J.C., T. Lewis and P. Bertram, 1995. Epilimnetic phytoplankton and zooplankton biomass and species composition in Lake Michigan, 1983-1992. U.S. EPA Great Lakes National Program, Chicago, IL. EPA 905-R-95-009.

Conference Proceedings:

1. Stock, A., 2004. Signal Transduction in Bacteria. In the Proceedings of the 2004 Markey Scholars Conference, pp: 80-89.

A Thesis:

1. Strunk, J.L., 1991. The extraction of mercury from sediment and the geochemical partitioning of mercury in sediments from Lake Superior, M. S. thesis, Michigan State Univ., East Lansing, MI.

### **Tables and Equations**

Tables and equations should not be submitted in a format exceeding the A4 page size (in portrait form). All tables should be embedded within the manuscript, and must be captioned and numbered sequentially. Each table should be on a separate page, numbered consecutively in Arabic numerals and supplied with a heading and a legend. Tables should be self-explanatory without reference to the text.

### **Figures / Illustrations / Photographs**

Graphics should be supplied as high resolution (at least 300-600 dp.i.) electronic files. Digital images supplied only as low-resolution print-outs cannot be used. Graphs, diagrams, chromatograms, photos, etc. should be prepared as clear, original positives, suitable for reproduction. All figures should be embedded within the manuscript, and must be captioned and numbered sequentially.

### **Proofs**

Proofs will be sent via e-mail as an Acrobat PDF file (e-mail attachment) and should be returned within 3 days of receipt. Page proofs are considered to be the final version of the manuscript. With the exception of typographical or minor clerical errors, no changes will be made in the manuscript at the proof stage.

### **Check List**

We recommend that you ask a colleague to read over your paper prior to submission to ensure it is of a high standard and conforms to a high level of scientific writing.

Before submission of your manuscript, please check that:

- All references cited in the text are included in the reference section.
- All figures and tables are cited in the text.
- Figures are at least 300 d.p.i.
- The pages are numbered.

We welcome manuscripts edited by the following organizations

JOURNALS CONSORTIUM ([www.journalsconsortium.org](http://www.journalsconsortium.org))

EDITAGE ([www.editage.com](http://www.editage.com))

BIOEDIT ([www.bioedit.co.uk](http://www.bioedit.co.uk))
